We have put together a list of plants that are perfect for the desert climate.

## The Desert Times

### Dry Spell Across the County

A DRY SPELL OF MONTHS has taken its toll on the desert landscape. The water table is dropping, and the ground is cracking. The plants are suffering, and the animals are struggling. The desert is in a state of crisis, and the people who live here are feeling the effects. The water is scarce, and the food is scarce. The people are suffering, and the animals are suffering. The desert is in a state of crisis, and the people who live here are feeling the effects. The water is scarce, and the food is scarce. The people are suffering, and the animals are suffering.

### Road Work Started

ROAD WORK HAS BEGUN on the main highway. The contractors are working hard to get the road back in shape. The work is expected to be completed in a few weeks. The traffic is being rerouted, and the inconvenience is being minimized. The contractors are working hard to get the road back in shape. The work is expected to be completed in a few weeks. The traffic is being rerouted, and the inconvenience is being minimized.
