“Homelessness is a devastating experience for families. It disrupts virtually every aspect of family life, damaging the physical and emotional health of family members, interfering with children’s education and development, and frequently resulting in the separation of family members.” (National Coalition for the Homeless)

Enrolling Homeless Children

1. Immediate Enrollment – The right to be enrolled immediately even if child/youth is unable to produce records normally required including immunizations.
2. Choice of schools – The homeless child/youth has three choices:
 - a. School of origin: The school child attended when permanently housed.
 - b. School last attended.
 - c. The school closest to the shelter or other temporary housing.
3. Transportation – School district is responsible for transportation costs to and from school of choice.
4. Dispute Resolution – If problems arise between the school and parents/guardians, they shall be referred to the district homeless liaison who will carry out the dispute resolution process. If the dispute cannot be settled, the State Office of Education Homeless Coordinator will carry out the dispute process. In the meantime the child must remain in school and receive services and transportation.

5. Services – Homeless children are entitled to the same services, such as tutoring, school programs, etc. that are available to other children in the district.
