

# CQRIT Electronic Key Cabinet

INT102

## Product description

This integration is a high-level interface facilitating control and management of C.Q.R.iT® and C.Q.R.iT® eXtreme key cabinets and locker systems via Gallagher Command Centre. To eliminate manual and duplicate data entry, Cardholders and Access Groups are automatically imported from Gallagher Command Centre into the C.Q.R.iT® key cabinets and lockers. Cardholders inherit access based on their Access Group membership and can instantly use allocated Keys and Assets stored in the key cabinets and lockers. All transaction log data from the keys cabinets and lockers, including alarms, are sent back to Gallagher Command Centre to provide a centralized reporting facility, eliminating the need for staff to monitor separate systems. The interface can also be configured to employ Gallagher Command Centre Anti-Tailgating features to prevent Cardholders from exiting the facility if they have not yet returned their keys or assets to the relevant cabinet or locker.

## Product details

Product Information System brand: CIC Technology Product name: C.Q.R.iT® (pronounced "Secure It") and C.Q.R.iT® eXtreme Software version: KeySecure® v1.3.4.1 and greater Interface developed by: CIC Technology Available and supported: Worldwide Industry applications: AICC Secure contact: sales@cictechnology.com Please note that, unless expressly stated otherwise:
